Dear Sir/Madam

RE: LINDEN WALK, LOUTH – PROPOSED ‘NO WAITING AT ANY TIME’

Lincolnshire County Council recently received a request to review the waiting restrictions at the above location.

Investigations have shown that inconsiderate and dangerous parking is occurring at the junctions and along Linden Walk, causing visibility and safety concerns for all road users.

The proposal is shown on the attached plan, and I look forward to receiving any comments you may wish to make. If I do not receive a response by Tuesday 9th September, I will assume that you have no objections to the proposal.

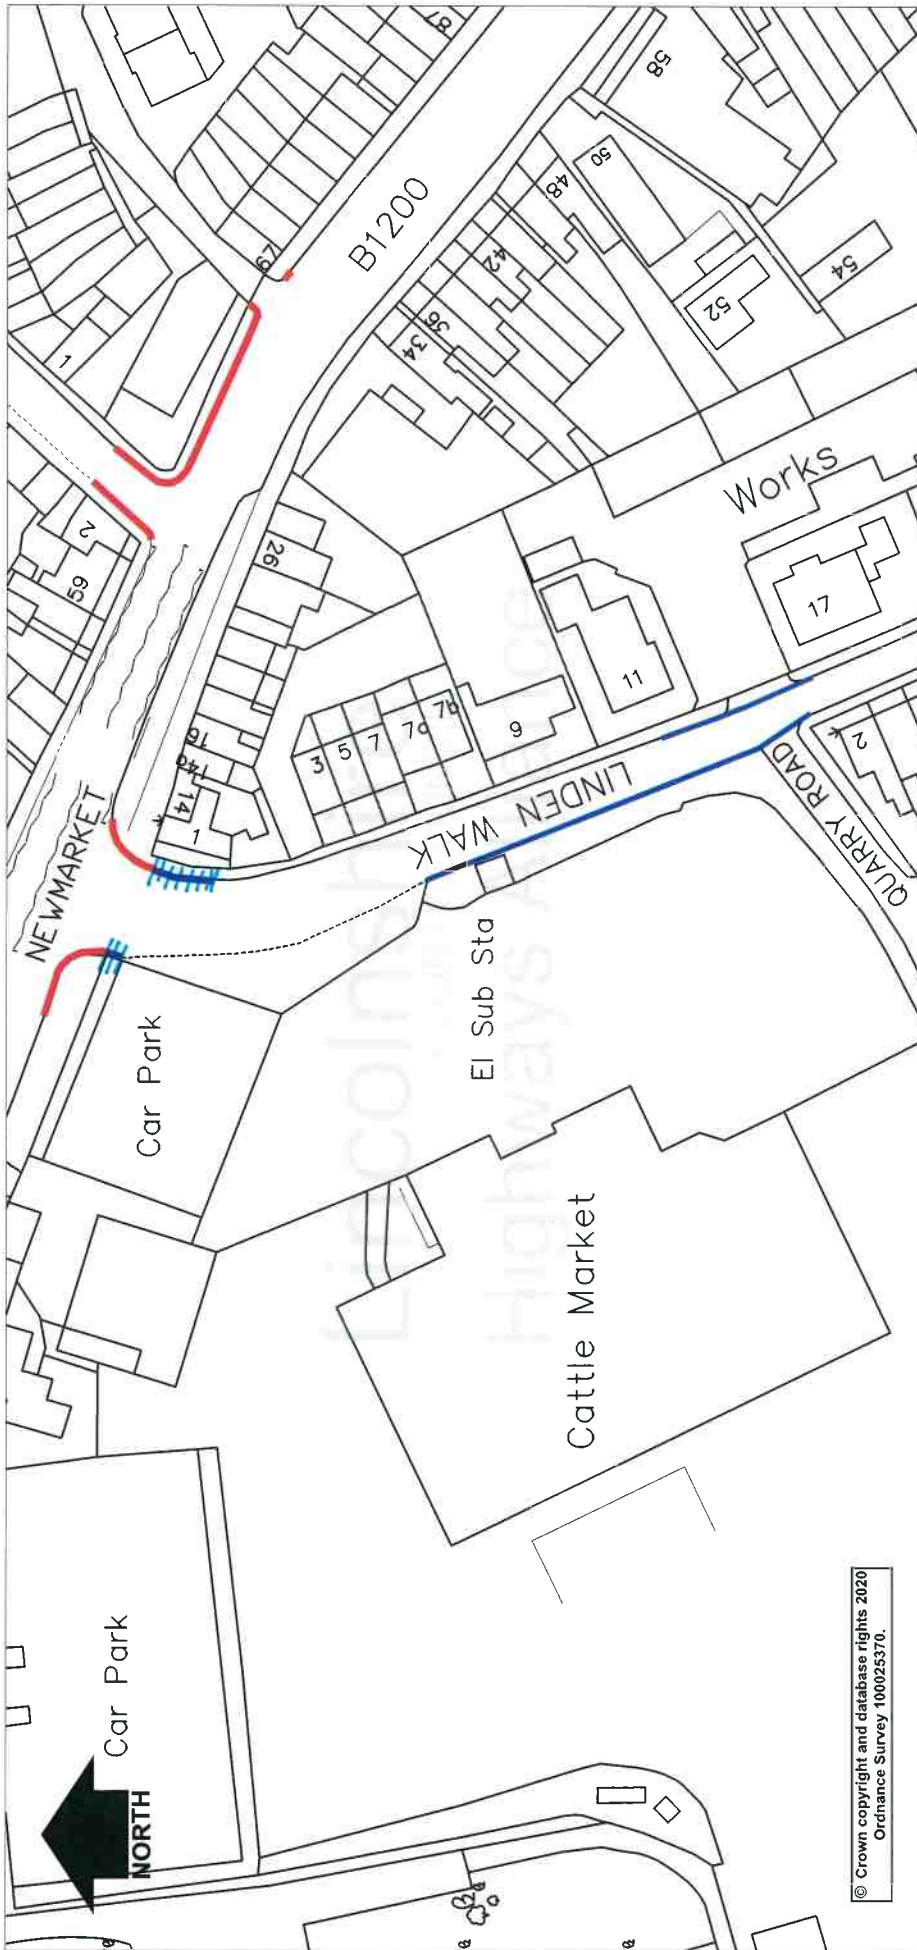

Yours Faithfully

N Brumby

LCC – Shaping Greater Lincolnshire Survey
Draft Council Response for Ratification 19th August 2025

Q1/ Please select the sector that best describes your organisation:

A/ Town/parish council

Q2/ How would you describe your experience of the current two-tier system in Lincolnshire, where service responsibilities are divided between county and borough/city/district councils?

A/ Mixed experience

Q3/ Please briefly describe any specific experiences that were particularly good.

A/ Through experience, it is generally easier to have conversations with the District Council / Councillors than County Council. It is democratically responsive, for each councillor being responsible for a smaller geographic area, and smaller quantity of constituents. Fix my Street, has generally been perceived to work well.

Q4/ Please briefly describe any specific experiences that were particularly poor.

A/ Communication between County, District and Town councils seems somewhat lacking at times. Communications at district level between the Exec. and Councillors also seems lacking at times.

County Council communications with Town council is particularly poor.
Responsive representation with current LCC councillors seems particularly poor. Health/ transport or representation at LTC meetings.

A good example of poor communications and consultation was the Parklets project, which was poorly communicated and implemented.

Q5/ Which of the following councils do you deal with in a typical year?

A/ Boston Borough (CCTV)
 East Lindsey District
 Lincolnshire County Council

Q6/ What benefits would you expect to see from local government reorganisation?

A/ No benefits

Q7/ What Concerns do you have about local government reorganisation?

A/ Potential disruption resulting from the breaking up of services
 Concerns over job security for staff in affected councils
 Impact on existing contracts or partnerships with affected councils
 New systems to use/learn
 Efficiencies and savings not passed on to local people and businesses
 Remote organisations don't know localities
 Lost local networks
 Diverse organisations' voices lost in larger areas
 Reduced influence for town and parish councils (and their urban equivalent)

Q8/ To what extent do you think local government reorganisation could help or hinder the following in Lincolnshire?

A. Economic Growth	- Don't Know
B. Local Planning	- A hinderance
C. House Building	- A hinderance
D. Infrastructure Planning	- A hinderance
E. Tackling Homelessness	- A hinderance
F. Tackling Climate Change	- Don't know
G. Tackling Health inequalities	- A hinderance

Q9/ Please use this space to share any ideas you have about how ' area committees' might work, who could be involved and what type of decisions you think an area committee could take.

A/ Area committees have been tried and disbanded. An area committee has no power to implement, and ultimately wont change anything. Town and parish councils can offer direct information on local needs and issues.

Area committees are an 'easy' deferral of issues, which often do not lead to direct action.

Q10/ Please use this space if there's anything else you'd like to tell us about local government reorganisation in Lincolnshire.

A/ Concern that Town & Parish councils will be less heard than current system.

Loss of Local identity

Unlikely to be heard by a small number of representatives.

The split of the county into two distinct areas will have adverse effects on some areas, benefits for others. Larger urban areas of population will receive ore focus at the neglect of smaller areas. This may create resentment within the system.

Communication with a smaller body becomes more difficult, less representation.

The system is apparently not working in other areas of the country where this has been implemented.

How often will councillors show representation at local Town/Parish Councils.

Ward size will increase substantially, at least a five fold increase.

Contact with representatives will become more problematic, leading to feeling of no one listens because there is no one there to represent.

Q11/ Are there any (additional) services that could be devolved to your town or parish?

A/ Deferred to LTC meeting next week.
