#### **NHT Public Representative Survey 2025**

LCC need help with a survey that will give it vital information about the Lincolnshire road network. Historically, this survey has been issued to a sample of residents within Lincolnshire (approximately 3000) but this year it is also targeting an additional response from Councillors and Parish / Town Councils as separate groups.

It will use the results to improve its Highways and Transport services. The information provided to the survey is hugely important and will tell LCC vital details about what it has done right, and what it can do better. In a time where unprecedented funding pressures are faced, it wants to ensure it is delivering as much as it can and with the available funding.

The general feeling, is that generally, most things are in decline, and not very good, and money needs to be spent to bring amenities up to a standard that is acceptable.

There is also concern about the usage of scooters in the town area, although an important device for mobility, some clarification on pavement usage could be considered.
